

Press release

TcLand Expression nominated as a featured member of the US Personalized Medicine Coalition

Nantes, France, January 25, 2010 - [TcLand Expression SA](#), a leading company focused on gene expression biomarkers in immunology and personalized medicine, is pleased to announce today that it was recognized as a featured member of the US Personalized Medicine Coalition (PMC). The PMC brings together people with a commitment to personalized medicine from all parts of the health care world. As a member of the PMC since 2009, TcLand contributes to advance and shape the future of personalized medicine.

"Being nominated a featured member of the Personalized Medicine Coalition strengthens the international visibility of TcLand Expression as one of the key players contributing to the advancement of personalized medicine, a field in which we are deeply involved", stated Alain Huriez, MD CEO of TcLand Expression. "We are proud of this recognition that highlights not only our European pioneering work but also our unique position in the development of personalized medicine biomarkers and companion diagnostics in immune mediated disorders."

TcLand Expression

TcLand Expression is a recognized pioneer in the discovery, development and validation of gene expression biomarkers for unmet medical needs in immunology. The company benefits from an exceptional scientific and clinical environment. For more information, please visit our website: www.tcland-expression.com

The Personalized Medicine Coalition

The US Personalized Medicine Coalition (PMC), representing a broad spectrum of academic, industrial, patient, provider, investors and payer communities, seeks to advance the understanding and adoption of personalized medicine concepts and products for the benefit of patients. For more information on the Personalized Medicine Coalition, please visit www.PersonalizedMedicineCoalition.org.
